COVID-19 INFORMATION AND PROCEDURES FOR BLACK DRIVE-IN

The State of New York has removed its restrictions concerning the covid-19 pandemic. Thus, we are updating our procedures to reflect these changes. Masks and social are no longer required inside or outside.

Tickets: We will be keeping our online ticket option, go to our web page and select "Order Tickets Online". We encourage everyone to purchase your tickets on line. By doing so, it helps expedite getting everyone into the theatre. They will have a scanner to validate your purchase on paper voucher or your smart phone. (Yes, we will still accept cards and cash at the box office) Further purchasing you ticket on line will guarantee a parking spot when you get to the theatre, in case of a sellout. If you plan to bring your own food, a food permit will be required, please purchase you permit on line with your tickets.

Parking: We are now back to 2 cars parking between the post, so when you park, please be sure you are within one foot of a parking post. We will begin loaning radios when needed, remember we have a limited supply.

Concession Stand: We will now let you dispense your own soda and pick up your popcorn from the display. We are keeping the pick-up window service, and calling you by phone when your order is ready. We found that many of our customers like the service and will make it a part of our regular operation. You do, of course, have the choice to remain and wait for you food inside. We will continue our enhanced cleaning and sanitizing procedures.

Restrooms: The restrooms will now be accessible via both the outside door on the road side of the building, and also through the inside concession door, when the concession is open.

For all practical purposes, we are back to normal. Hooray!
